When bicycling in Bloomington, ride safely and be well-equipped. By following these safety tips you can help make your bicycling experience both enjoyable and fun.

1. **SHARE THE ROAD** – be courteous.
2. Always wear your helmet – be sure it covers your forehead and fits properly.
3. Obey the same traffic laws as motorized vehicles – do not pass a vehicle on the right, stop at stop signs and stop lights and obey one-way streets.
4. Always use hand signals and look before turning – make sure motorists are aware of your intentions, and be prepared to yield if you are not sure of a driver's intentions.
5. Always ride on the right – never ride against traffic.
6. Be alert – watch for car doors opening, storm grates, railroad tracks and potholes.
7. Ride in a predictable manner – ride in a straight line, do not swerve in between parked or stopped cars, do not ride out mid-block, and be especially careful around alleys/driveways and parking lots.
8. Yield to pedestrians – pedestrians have the right of way.
9. Avoid riding on sidewalks.
10. Always be prepared to stop – keep your hands on or close to the brakes.
11. Dress to be seen – wear bright clothing and use head and tail lights at night (reflectors are not enough).
12. Wearing headphones while riding your bicycle is dangerous.
13. Become familiar with your bicycle, and keep it in good working order.

Motorist safety tips

Watch out for bicyclists and pedestrians, especially when making a right turn near schools, walkways, bikeways and shopping centers. Remember that children bicyclists may be more unpredictable, slower and smaller – exercise extreme care.

By following these safety tips you can help make bicycling safer:

1. **SHARE THE ROAD** – be courteous.
2. Always slow down when passing a bicyclist and check over your shoulder after passing before moving back over.
3. Give bicyclists at least three feet of space; give extra space in bad weather.
4. Remain behind a bicyclist when turning right.
5. Expect bicyclists on any road at any time.
6. Always look for a bicyclist when approaching an intersection.
7. Recognize situations and obstacles that might be hazardous to bicyclists, such as potholes, debris and drainage grates. Give bicyclists adequate space to maneuver.
8. Obey all traffic laws and always signal your intentions to others.

Notice to adults concerning children bicyclists

Since children under 16 have not had formal training on the rules of the road, it is your responsibility to teach them the basics. It is the law in Bloomington that all children under the age of 18 must wear a helmet.
